Understanding Behaviour That Challenges

High-quality Learning Resources

Challenging behaviour used to be called 'problem behaviour' but it is important to realise that an individual who displays challenging behaviour is not a 'problem to be fixed'. Challenging behaviour is a sign that something isn't working for the individual and this may be a need that is not being met or an inability to communicate their feelings. Behaviour can be described as challenging if it causes harm to the individual or others, or prevents the individual from fulfilling some aspect of their life, such as education, work or relationships. Such behaviour is a challenge to parents, carers and professionals working in various sectors, including education, health and social care and public services.

Benefits to your organisation

Improve your team's understanding of the reasons why individuals display behaviour that challenges and its impact

Ensure all staff are aware and understand behaviour that challenges and its effects
